Technical Skills

Strong JavaScript, ES6, React, MySQL, MongoDB, Node.js, RESTful API, HTML5, CSS3, Bootstrap, Git, VSCode, GraphQL, Prisma, Express.js

Experienced AngularJS, Redux, TDD, Docker, Apollo, AWS, Heroku, Mocha, Chai, mLab, npm, webpack

Software Applications

Expertize | Full Stack Engineer

React, Apollo, GraphQL, Prisma

A platform for professionals to teach and learn from each other.

- Designed the private real-time chat room system to allow user chat sessions utilizing sockets.
- Implemented TokBox, a cloud platform for adding live video, voice & messaging to allow for video sessions between two users.
- Incorporated GraphQL and Prisma for efficient querying of large amounts of stored data and for reduction of endpoints.

EventSwipe | Full Stack Engineer

React, MongoDB, Node.js, Express.js

An app that serves and saves events catered to the individual.

- Designed optimized server queries to reduce over-fetching from the MeetUp and EventBrite API.
- Created a connection between the client, server, and database in compliance with the REST architectural style.
- Implemented Google OAuth login using Firebase authentication SDK for security and login persistence.

Maverick | Full Stack Engineer

React, MySQL, Node.js, Express.js

A personal stock portfolio.

- Fetched stock ticks from IEX API and dynamically rendered price changes through a marquee feature.
- Implemented email/password login using Firebase authentication SDK for security and login persistence.
- Managed team Git workflow, handled peer code reviews, and upheld adherence to style guides.

Education

Rutgers University, BA in Biological Sciences 2014

Hack Reactor, Advanced Software Engineering Immersive 2018

Work Experience

Excel Orthopedic Physical Therapy | PT Aide 2016 - 2018

- Worked in a fast paced work environment in a team of 5 - 7 aides to manage therapeutic exercise regiment of multiple patients at a time.
- Created and nurtured an interpersonal relationship with patients to support and aide in rehabilitation process.

Benjamin's Pharmacy | Pharmacy Technician 2014 - 2016

- Assisted in transfer to a new pharmacy management system, swiftly learning use of new system and serving and Lead Trainer for rest of staff.
- Trained new technician and staff, ensuring all the standards of the pharmacy was fully met.
- Oversaw inventory logistics, implementing a process to ensure 100% stock availability, while decreasing overstocking.
